Judge Dwinelle and Stanley, being on both Tax-payers and Democratic tickets, were elected without opposition. There was no betting going on, and the election was one of the quietest ever held in this city.

The Chicago *Tribune* in discussing the visionary schemes proposed for Government aid, says, however, that there is one way in which the Government may do a substantial benefit. The Government must have public offices—custom house, Postoffice, Court rooms, etc.; also, a Bonded Warehouse. These are absolutely and immediately necessary. Let our Congress provide for these, to be of the most liberal dimensions and best class. If Congress will appropriate one or two millions of dollars to begin this at once and order the reconstruction, it will do more to restore confidence and stimulate private enterprise than any impracticable attempts to loan public money to back up stockholders in insurance companies. The fact that Congress had voted five millions to build the necessary Government buildings would be the best tidings to unemployed labor in the city.

Louisville has a Society for the Prevention of Cruelty to Wives. Upwards of thirty members have been enrolled, and they propose to raise a fund to be used in enforcing the law to its fullest extent against wife-beaters. If this does not effect a cure the offender is to be treated on homeopathic principles. Whenever a man is known to be guilty of whipping his wife a warning notice is to be sent him, and a repetition of the offense will insure him the kind attentions of the Society. In very many cases it will probably be found that the allopathic treatment is the only effective method of curing the disease.

In two years the Union Pacific Railway has sold 440,000 acres of farming lands for the sum $1,900,000.

The Great Conflagration.

From dispatches to the San Francisco *Chronicle*, we take the following:

CHICAGO, October 13.—There is no gas in the city, and at night the streets are dark, save as they are dismally illumined by the red glow of the flames that are still raging in the immense coal piles along the river, where thousands and thousands of tons of coal—the stock laid in by the Gas Company, manufacturers and dealers for the Winter—are burning, defying all efforts to extinguish the fire, and all through the ruins of the South Side little blue and red flames are seen at night, indicating buried piles of coal laid in for the Winter's use.

THE DESTRUCTION OF THE WATER WORKS

Leaves the city without water, only as it is procured by individuals from the lake shore. Steam fire engines are employed day and night pumping water into the water pipes from the lake; but the supply so obtained is wholly inadequate for even a partial supply for the city. It is mainly consumed in the immediate vicinity of the source of supply, and does not reach the most distant localities where it is most needed. In the meantime every effort is made to

REPAIR THE MACHINERY

Of the Water Works. There are three pumping engines there, either one of which can furnish a moderate supply for the entire city; two single engines, one in a bad condition, and will probably need to be almost entirely replaced; the third is a large double engine, which is fortunately in a much better condition. None of the essential parts that have yet been got at appear to be injured, and there is no apparent injury

THAT CANNOT BE REPAIRED

In the city. By to-morrow it is hoped that steam pipe will be in order, so that the machinery can be tested, and it is confidently anticipated that by Monday, if the engine is found in as good order as it appears, it can be regularly at work; but it is, of course, impossible to detect by the eye any slight mechanical inaccuracies, which in such complex machinery would ruin everything. The condition of the cylinders is not yet known. The Board of Supervisors this morning adopted resolutions to proceed immediately

TO REBUILD THE COURT HOUSE

On the site of the old building. The City Council has taken similar action. The building belonging jointly to the city and county, it required the joint action of the two bodies to settle the matter.

Several of the banks have already commenced work clearing away the debris of their old buildings, and have made contracts for rebuilding.

THE LOSS OF LIFE

During the great fire and stampede of the population was great, but doubtless has been largely exaggerated. About one hundred bodies have been recovered from the ruins, and more are known to be buried under the fallen walls. It is thought that many bodies have been completely burned up beyond all traces, but it is thought by intelligent judges that not more than 250 lives were lost.

Col. Hanson of the U. S. Engineers, was driven from the Palmer House, where he was lodging. He wandered up State street and stopped in a restaurant for a cup of coffee and a sandwich, while eating which he was

DRIVEN FROM THE BUILDING

By flames. He left three men behind the counter of the restaurant waiting upon customers. These three men perished where they stood and their bodies have been recovered and identified. When Colonel Hanson left the place he was obliged to run at the top of his speed through a frightful shower of falling cinders and blazing material, with a tornado of flame and smoke driving through the street and licking up whatever was combustible. His clothes were frequently on fire, and he only secured temporary safety when he reached the corner of Wabash avenue and Randolph street.

Julius S. Ramsey, President of the Corn Exchange Bank, who resided on the north side of the river, gives

A FEARFULLY GRAPHIC ACCOUNT

Of the awful stampede of the population of that section. He had been at work on the South Side, securing the assets of his bank in vaults, and doing what he could to check the spread of the conflagration, until he observed, soon after midnight, that the flames had leaped across the river. He hurried home and found his elegant residence in immediate danger. He had time merely to gather up his family silver and throw it in a safe with a few other trifles, and then get his family together and run, as the fire was already upon them. He picked up

A VALUABLE PAINTING

That cost him $1,000, and attempted to carry it away with him, but was obliged to drop it. With the clothing he and his family had on their backs they joined the multitude pressing tumultuously and frantically up Chicago avenue. His party comprised himself, his wife and children. They were driven away out on the prairie with nearly 100,000 others, including

THE ENTIRE POPULATION

Of that section of the city, who had no other escape. In their flight many encumbered themselves with parcels of bedding or bits of furniture, the most of which had to be frequently abandoned. Some had wagons with animals to haul them; others were hauling vehicles loaded with furniture; a few were riding in carriages filled with baggage and paintings. Now and then they would be met by others trundling wheelbarrows or handcarts, loaded with all their savings.

ALL WERE PRESSING FORWARD

In the same direction toward the open prairie, seeking escape from the horrors of the city of man's building on the more spacious plain spread by the Almighty.

CURRENT NOTES.

The largest cotton mill in the world will commence operations in Norwich, Connecticut, in a few weeks. Its capacity is 110,000 spinners.

A Wisconsin veteran of the rebellion has written to the United States Pension Agent to drop his name from the lists, as he has recovered from his injuries and does not wish to burden the Government longer. Patriotism is that man's motto in peace and war.

A Duluth letter states that "the emigration agents now in Europe report that there will be as many as forty thousand emigrants arrive at Duluth next summer, bound for Dakota, Montana and Oregon. They would have been here before but there was no means to transport them westward to their future homes.

The signal office at Wasington City has now such telegraphic facilities that at any hour, day or night, should reports of heavy storms be received, the regions over which the storm is likely to extend can be warned some hours in advance, the headquarters being in direct communication with all the principal cities of this country.

This is the way the Chicago *Times*, high Democratic authority, puts it: "The action of the Tammany society in indorsing their corrupt and villainous leaders is another step toward the final overthrow of that organization. At a meeting of the general committee, Tweed and the rest of the present officers of the association were re-elected. Tweed's speech on the occasion was a model of cool impudence. The affectation of injured innocence by these men against whom enough is absolutely known to send them to State prison, is a disgusting exhibition of effrontery. But it deceives no one.

The San Francisco *Bulletin* speaks thus of "mushroom insurance companies:" There are responsible organizations can afford to take risks at rates that are clearly proven, by long experience, to be below general average paying prices; since with a run of good luck they can make money, and in case of ill luck they can go into bankruptcy, and generally having small capitals, there will not be much to lose. These companies are chiefly brought into existence and sustained by those who are ever looking for cheap insurance—such persons failing to discover, what is so palpable in all departments of life, and especially in underwriting, that cheap insurance is the poorest kind of security, and often no security at all.

Slavery Abolished in Brazil.

RIO JANEIRO, Sept. 27.—The bill for the abolition of slavery in Brazil passed the Senate by an overwhelming majority.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Oct. 19.—Mayor Selby called a meeting at the Chamber of Commerce this afternoon and stated that in view of the immense extent of the loss of life and property in Michigan and Wisconsin, and the immense suffering which must be entailed upon survivors, it had been suggested that it would be well to direct a part of the fund raised for the relief of Chicago, to the relief of the people of the country districts ravaged by the recent fires.

Mr. Patrick moved that the Executive Committee be authorized to set aside such part of the fund as they thought proper for the relief of the people of Michigan and Wisconsin. The Mayor, Mr. Friedlander and Washington Bartlett, the Secretary, were added to the Executive Committee. It was decided to cease collecting, and hand in their books to the committee on Saturday noon. The amount in the hands of the Treasurer at this time is $11,048 60, and there are still several subscriptions to collect, which will increase the amount to $15,000. There has also been sent east by the different societies and individuals, about $35,000, and several thousand dollars will be raised from different benefits announced, and the sale of paintings which is to take place at one o'clock to-morrow.

The St. Patrick mining company has levied an assessment of $5 on a share.

Coffee has advanced 2½ cents per pound within a week, owing to heavy orders from St. Louis and Salt Lake.

Arrived—The steamer *John L. Stephens*, from Portland.

The Pacific Insurance Company have decided finally to-day to pay all losses and resume business, issuing policies to-morrow morning. Yesterday their agent in Chicago estimated their losses at $1,200,000, and it is rumored to-day that later dispatches placed the amount under a million.

Sabati Farrus, a laborer employed in demolishing the Pavilion, fell from the roof, breaking both thighs and jaw bone.

OREGON.

The press of the State generally is speaking out against the "badge rule" adopted for the late State Fair by the State Agricultural Society.

A few nights ago at Salem a wagon used for sprinkling the streets was placed astride the roof of Geo. K. Shiel's law office, with the words "How's this for High?" painted on the front end.

The *Statesman* says that ten tons of machinery for the Beaver Hosiery Co., Jefferson, arrived by railroad Monday, direct from Davis & Furber, North Andover, Mass. It will be immediately set up and the Hosiery works will soon be in operation. The flouring mill of Jacob Conser will also soon be at work with additional and improved machinery. Jefferson is going ahead and improving.

From the *Statesman*: The Secretary of the State Agricultural Society, who has been busy since Monday morning in making settlements with gate keepers and others, in whose hands tickets and badges were placed for sale, informs us that on footing up, he finds that the result so far shows the receipts to have been $13,925 68, or an increase over last year of $582 93. To this is to be added some $250, received on licenses, the exact figures not remembered by us, making in all over $800 increase on receipts of 1870. The entrance money was some $159 over 1870, and the licenses about $200. Who says the Fair was poorly attended?

Speaking of the Indians, in connection with the Council recently held at Salem, the *Statesman* says: We suppose that they have buried the hatchet so deep that it can never be dug up again, and have gone home fully resolved to be better and grow wiser. These dusky sons and daughters of the forest are possessed of a greater degree of intelligence than we think they usually get credit for. Tuesday night, at the church, we listened to speeches from them, some of which we thought could not be excelled by many of the white population present. The efforts of the Indian Department which are now being put forth for the education and advancement of this inferior race seem to be meeting with abundant success. We hope this good work will continue, until superstition and barbarism shall be done away with entirely; when the Indian can rejoice in complete and true civilization.

THE TERRITORIES.

A boot and shoe establishment at Olympia employs twenty workmen and has recently sold $30,000 worth of its own manufactures.

A daily paper called the *Cyclops* has started at Port Townsend. It is presumed that it will have an "eye single" to advocating the advantages of Port Townsend as a terminus.

The *Northwestern Home* says that the number of desertions from the garrison at Vancouver seems to be increasing. Over twenty soldiers have deserted from that post since last pay day.

A good deal of energy is expended by the Kalama newspaper in trying to write Portland down. Might not its talents be employed with better results in writing Kalama up? Certainly we should be glad to see the city of Columbia river fulfill the expectations of its newspaper.

Severe language is used by the *Arizona Citizen* toward Vincent Colyer, Indian Peace Commissioner. Mr. Colyer is accused of taking the part of the hostile Indians of Arizona against the white settlers, and of interfering with military operations. The *Citizen* says that "the force of war and peace can't be successfully played on the same stage at the same time, especially when the objective party want no peace."

GENERAL BUTLER STILL WITHIN THE REPUBLICAN FOLDS—ADVICE TO THE TEMPERANCE MEN.—General Butler in reply to representatives of the temperance party, who applied to him for advice concerning the proper course for that party in the present political campaign, writes as follows:

LOWELL, Sept. 30, 1871.

My Dear Mr. Hatch: I must work for all reforms inside the Republican party. I belong to the organization, and have as yet seen nothing to justify me in quitting it as a party man. Our Convention has wonderfully ignored the temperance question. Not a word in regard to it—not even a glittering generality. As a Republican I am not in a situation to advise those who are carrying a separate organization, but viewing the question from your standpoint, I should have no doubt but that it was the duty of every man in favor of the prohibitory law and its enforcement to nominate and support an independent candidate until the Republican party will see its folly and bring back the temperance men into its fold. Such action cannot hurt the Republican party as a national organization, and will do it great good in its purification and rejuvenation. I am yours, truly,

BENJAMIN F. BUTLER.

The educational institutions of this country owe their financial support indirectly more to successful invention more than to any other one thing. Cyrus H. McCormick, the mowing machine man, not long ago, gave $75,000 to the Presbyterian Theological Seminary at Chicago, and a few days ago gave $40,000 more to endow a theological chair. For all this he probably expects to reap his reward in due season.

LATEST NEWS CONDENSATIONS.

The New York agency of the London, Liverpool and Globe, has received a telegram to this effect: "Losses by Chicago fire, $2,500,000. Pay immediately and draw."

Falkner, Bell & Co., agents in San Francisco of the Imperial Fire Insurance Company, London, received a telegram on the 14th stating that their losses by the Chicago fire were only about £20,000 or less than $100,000.

The San Francisco *Bulletin* says: The impression now prevails that high prices for wheat will rule until another crop is matured and sold. There is also a general impression that the rains will be abundant during the coming winter. These two considerations are having considerable influence in turning attention to the next wheat harvest. From present appearances we judge that a greater breadth of land will be sowed to wheat the coming season than ever before. It is a make of break policy.

A True Industrial Policy.

It is an old observation that use breeds habit in a man. This sententious saying is singularly true of our neighbor of the *Herald*, who has so long followed a "low species of party pleading" in the discussion of political questions that he falls, though insensibly, perhaps, into the same strain in treating all other subjects. It has become his habit, from long use, to misstate the position of contemporaries, and then to frame replies to his own groundless propositions. This trait is illustrated by an article in the *Herald* on the policy of raising wheat for export. The article is in the form of a reply to some observations of ours on the same subject. Our position was that it is not a wise policy to depend on this as the chief industry of the State. The *Herald* rejoins:

> Our neighbor says, "Oregon needs other industries." This is perhaps true; but it by no means follows that our farmers should therefore abandon the culture of wheat and other varieties of small grain. * * * But says the Sacramento *Union*, "wheat impoverishes the soil." So does any crop, to a greater or less extent; and are we therefore to abandon all culture and let the soil alone, from fear of impoverishing it? Nonsense. * * * Our neighbor wants all the farmers to go to raising sheep and producing wool. Nonsense again. How much would wool be worth if the plow were to stop?

The *Herald*, while professing to state our proposition, has not stated it at all. It has invented its own hypothesis, and valiantly combats it. We did not suggest that "our farmers should abandon the culture of wheat" and "let the soil alone;" nor did we propose that "all the farmers should go to raising sheep and producing wool." We said that "there are other forms and branches of agriculture to which we should turn more of our attention. The production of wool is one of these. So is the rearing of cattle." Nothing was said or intimated about "stopping the plow." But we urged that the production of wheat should not be relied on as an *exclusive* industry, as it now is. We might have added that it would be well not to run the plow quite so much for wheat, but a little more for potatoes and other useful crops, for which we now send to California. A diversified industry is what we want. We shall not have it so long as all our energy is devoted to the single pursuit of wheat culture. Nothing is so uncertain as the wheat market, and as a consequence no investment is so precarious as the production of wheat for export.

It requires as much capital to purchase and carry on an average sized grain farm as to engage in a manufacturing enterprise of moderate proportions. Can it be a wise policy to raise wheat for export as an exclusive industry, and import everything else we consume? By such a policy we pay the cost of transportation both ways and all profits of middlemen. We sell wheat at the lowest price, and buy plows, harrows, wagons, stoves, pitchforks, ox yokes, axe handles, tubs, pails, brooms, soap, candles, and the thousand and one other manufactured articles consumed in the country, at the highest rates. We are thus at a disadvantage, and when the foreign wheat market fails, as it has frequently done and will do again, we are flat. Our prosperity ceases, we have no money, and our industry is destroyed.

We have said that a most precarious dependence is the foreign wheat market. Experience proves this. The price we get here for our wheat depends entirely on the amount of wheat wanted in Europe. Experience shows that vacillation in demand is frequent and great, often suddenly passing from one extreme to the other. The market has so many aspects of uncertainty that farmers never can calculate beforehand, with any degree of certainty what quantities of grain will be required for exportation, or what prices will be.

A statistical writer of prominence shows that the official record of the Treasury Department verify these statements in the most significant manner. For example, take wheat, the great agricultural export of the West. In 1847 the entire European demand for this cereal amounted to 4,000,359 bushels; next year it dwindled to 241,300 bushels. The latter quantity appears ridiculously small when it is considered that the warehouses for storing grain in Chicago alone, contained, during last year, except only three weeks, more than five times as much, and during fifteen other weeks of the same twelvemonth, more than ten times as much. In 1858 Europe took of us to the extent of 6,846,071 bushels of wheat; next year the quantity fell off to 496,864 bushels—a total frequently exceeded by one week's receipts at Ch. * In 1860 the transatlantic demand expanded to 4,916,745 bushels, advancing, in 1861, by a single mighty leap, to 29,007,686 bushels. In 1864 the total export of wheat to European countries amounted to 16,825,342 bushels; but, in 1865, it dropped, without warning, to 3,102,055 bushels, declining still further, in 1866, to 1,589,312 bushels; yet, in 1867, it took an upward movement, rising to 6,093,688 bushels, more than doubled, in 1868, by an aggregate of 13,371,061 bushels. What reliance can be placed upon a market for wheat subject continually to such extraordinary fluctuations? What value to the Western farmer is regular dependence upon a demand so variable, so fickle, so delusive? What gain could it possibly be to our wheat-growers to enlarge the scope and intensify the force of such dependence? Would not the grain-producing States commit an act of supreme folly, by attempting annually to regulate the surplus of their crops, so as to meet a foreign requirement subject to a contraction or expansion such as that exemplified above a requirement that might take more than thirteen times as much to satisfy it in one year as in another?

These considerations receive additional force from a comparison of prices here for the term of several years. Wheat is now worth about $1 35 a bushel in this market. In October last year it was quoted at 85@90c; in October, 1869, at 60@75c; in October, 1868, at 65@70c, and in October, 1867, at 95c @$1.00. It will be seen that wheat now commands a better price than for many years, and that the market has been very fluctuating. Until this year there has been no money in wheat for the farmer, and the chances are that next year it will drop back again to average rates of former years. It is best to look at these things in the light of experience and facts.

The *Herald* sees fit to sneer at manufactures, and affects to deride as "half crazy" those people who insist that manufactures are an essential part of the prosperity of the country. That paper follows the free traders' scheme of excellence, which is built on the doctrine that America should devote its labor mainly to the soil, and import from other countries most of its manufactured articles. That is, it would make our agricultural classes dependent on foreign consumers for the sale of their products, and support foreign manufacturing labor instead of our own. And this, too, though experience offers no encouragement to the grain producing States to look abroad with any reasonable reliance for a permanent market at remunerative prices for their surplus grain. The truth is, the American farmer can only find regular customers at home. Most of our cereals and provisions must be consumed by our own people. Now let us diversify our industry, start those manufacturing enterprises which the *Herald* thinks so little of, and give employment for labor in the production of those innumerable manufactured articles which we want and must have, and the home market for agricultural products will be enlarged and all descriptions of industries will thrive together.

We have cited facts enough to show that the production of grain for export is a poor reliance. It is at best a makeshift for industry, and the foreign market is too uncertain to allow us to count on continued prosperity from it. We do not say that our farmers should stop growing grain, but we do say that it is necessary as speedily as possible to develop auxiliary pursuits. Our present policy will answer only till we can establish a better.

Strong Testimony.

Last March the Board of Police in the Fire Department of Chicago made an official report to the Common Council of that city, in which the insufficiency of the water supply in case of a great fire was set forth, with an urgent request that measures be taken at once to increase the supply. Though Chicago had just expended several millions of dollars on her water works, it was confessed that the system and the supply for fire protection were wholly inadequate, and the Board presented an elaborate argument to the Common Council to show why the Holly system should be adopted. This is testimony of the highest value as to the efficacy of the Holly works. We have a copy of the official report, and when space permits we will print this portion of it.

The Republican majority in the judicial election in California seems to be much larger than in the general election last month. In San Francisco the majority averages nearly 5,000 against about 2,500 in the September election. Other places show large gains, and the probability is that the Republican majority in the State will be nearly or quite 10,000.

That Dissatisfied Emigrant.

COVE, OGN., October 15, 1871.

TO THE EDITOR OF THE OREGONIAN:

SIR: The only real, genuine funny thing that we of Eastern Oregon have been permitted to enjoy lately, was that communication from a "Dissatisfied Emigrant," which you published recently. The Pixley Sisters and Josma Pipes combined have failed to arouse our mirth, but he of the rueful countenance has our thanks.

He explodes and scatters into a paroxysm of indignation at the authors of letters and newspaper articles counseling emigration to Oregon; and as his caustic pen vehemently characterized them deceivers, liars and swindlers—"Yes, sir! swindlers!"—I imagine his protruding optics could have been lassoed with an inch rope, while from their liquid and fiery depths withering darts of annihilating extirpation could have been seen obliquely penetrating the suffering foolscap, which was to convey them to public print.

I can imagine no circumstances under which any man could be justified in producing such an attenuated ululation, unless, indeed, he had been trying to reconcile a *Herald* editorial on finance with reason. Or, possibly, his better half may be a woman suffragist, inasmuch as Miss Anthony is prevalent, and who can surmise how much that devoted virgin may be held responsible for in the next world for having invoked such a guttural emanation from this "slough of despond." I can vividly imagine now seeing our despondent friend, as his back is turned on his barren potato patch, and his poor half-starved hogs piteously beseeching their disconsolate owner for a "little more corn," fall to the ground, as did Saul of Tarsus, and with one hand under his thigh, swear by his Maker that—there is not a birch tree in Oregon.

Who can properly appreciate the value of "King Korn" until he has spent one year in the Western States, plowing it among cockle burs and Spanish needles, from sunrise until dark, working all winter to get it shelled, and then take a sack at a time to mill on a horse, and there grind it with your own horse, finally, in a horse mill consisting of a pair of burs set on an old hickory stump—made in 1706? Who does not feel for our dissatisfied friend, to think that he has left these blessings and come to Oregon where they raise wheat—the ground plowed with gang plows, the grain cut with headers, and finally the farmer is compelled to take one dollar per bushel for it, and that in miserable cash, too?

Who does not wish our friend was back in some Missouri creek bottom where he could at any time, by sitting with his back to the sun, and a green cucumber in sight, shake with the ague until he would resemble a human earthquake; and where, to eat piece of pork under favorable circumstances, would convert his stomach and mouth into a juvenile volcano?

Who does not, with him recognize the convenience of not having these blessings in Oregon, and strike his breast in despair that we no longer breakfast, dine and sup on quinine?

Now, what does this Hector mean when he says that he has not seen any fat hogs in Oregon? Is it of any use to attempt a refutation of such nonsensical bosh? If he is not blind, it carries its own refutation with it. And potatoes will not grow! Why, if anything would cause a son of Erin to blush for his mother country, it would be the size, flavor and productiveness of potatoes on Oregon soil. There is no corn grown here! Now, everybody knows that corn does grow, even in Western Oregon, and that good, too; and in Eastern Oregon corn bread is a "home made" article. If our friend will call on me, I will stuff him on corn bread *once* in Oregon, at any rate. I will agree to show him fat hogs, large potatoes, and withal, a "good suit" of clothes.

He says he *could* write more! Wonderful capacity! Who does not marvel at this inexhaustible mine of contentious obstinacy, and stand appalled before the incomprehensible grandeur of his boundless genius? I will wager that in his next he will firmly contend that he has not seen an apple in the State, and close by repeating the language of his ancient prototype:

The stings of love and rage are fixed within,
And drive me on to madness, earthquakes, whirlwinds.
A general wreck of Nature now would please me.

Seriously, the whole letter was written without any regard to truth or facts, and was intended to misrepresent this State, as every old settler who reads it will know.

Therefore, come ye weary and heavy laden denizens of Missouri, Illinois and other Western States, who, in order to obtain water for domestic purposes in the summer, are compelled to catch that which falls from the house-roof during occasional showers, come to Eastern Oregon where a crystal stream runs by every farmer's door, which, three hours before he uses it was virgin snow, "pure from its home in the far winter clouds," where you can raise fat hogs on good wheat and large potatoes. Come to Western Oregon, where the water is no less pure and abundant, where they raise good wheat, fat hogs, large potatoes; where they *do* have good wagons, teams, harness and clothes. Come along and fill up these "deserted places" which our friend found in his memorable "five day's ride," and you will have no occasion to say on your departure to Oregon, as Cataline said to the Roman Senate: "I go; but I return," T. T. G.

Reminiscences of Democracy.

To the statement put forth by a Democratic politician that in the days of Democratic ascendency corruption was unknown and defalcations were unheard of the New York *Tribune* thus replies with some incidents to refresh the Democratic recollection:

> Samuel Swartwout was the Democratic Collector of this port under Jackson; and he went out a defaulter for more than one million dollars. William M. Price was the Democratic District Attorney; he only embezzled a quarter of a million; but that was all that he could lay his hands on. The receivers of public moneys under the Jackson dynasty were nearly all thieves, and their stealings were never recovered. So universal was their dishonesty that an agent sent from the Treasury to stir them up reported that "morality does not move in so limited a circle down here"—that is, in the South West—as at Washington! and he gravely recommended that, as the receivers had stolen themselves full handed, it would be better to leave them in office than to replace them by successors that would begin to steal so soon as any money came into their hands, and keep on stealing till they, too, had houses and lands, horses and plate, like their illustrious predecessors. All these are matters of public record. Finally, the tip end of the Democratic dynasty here was Isaac V. Fowler—a special pet of the Van Buren-Tilden oligarchy—who was turned out of the postoffice a defaulter for over $200,000, nearly all expended in his party's service, and of which no penny was ever recovered.
>
> We take no pleasure in these reminiscences. We do not mean to imply that there are not thieves in the Republican as well as in the Democratic party, nor that they have not a kindred facility in getting office. Since the Saviour of mankind had a thief among his chosen twelve, it would be insane presumption to claim a stainless purity for each of our one hundred thousand Republican office holders. Some of them are doubtless rascals; while the whole crowd will bear close watching and behave all the better for it.

AMONG THE ADVANTAGES OFFERED BY THE NEW YORK LIFE INSURANCE COMPANY are—

1st. PURE MUTUALITY, so that the *entire surplus earnings* over the actual cost of insurance is returned to the policy holders who are the only members.

2d. AGE, having been organized in 1845. It has the benefit of the experience of a quarter of a century, and members are thus guaranteed from all doubtful *experiment* in the method of conducting its business.

3d. STABILITY AND PERPETUITY shown by the accumulation of a capital of *Seventeen Millions of Dollars*, after paying all losses promptly, and returning large dividends to its members. It has now an income of over *Seven Millions of Dollars*, and the interest on its investments, with premium on gold, &c., has been sufficient during the past two years to pay accruing losses.

4th. NON-FORFEITURE OF POLICIES. It *originated* the system of non-forfeiture of policies, and to it the public are indebted for a feature so favorable to the insured.

5th. SUICIDE does not cause a forfeiture of the policy, that being considered an evidence of insanity, and insanity the result of disease.

6th. DIVIDENDS. Its dividends are declared annually, and are available *immediately as cash in payment of premiums*. Many companies declare their premiums annually, but do not pay them till several years thereafter; others defer their declarations for two, three or four years from the time the policy commences. In this Company a party always has a dividend which can be used in the payment of the *second and all subsequent annual premiums*.

7th. ITS DIVIDEND SYSTEM is the "Contribution Plan," by which each member is charged with the exact cost of his insurance, and receives back his surplus payments. These dividends can remain with the Company, participating in its earnings, and be used at any subsequent period in the payment of premiums.

8th. LIBERALITY IN SETTLEMENT OF LOSSES. Experience has shown that cases arise where policies, although EQUITABLE claims, are not LEGALLY so. The records of this Company bear many acknowledgements from widows and relatives of deceased members of its liberality and fairness in settlement of all such losses. There being no stockholders in the Company to share its profits, interests adverse to policy-holders cannot possibly arise, the Trustees simply occupying the position of arbitrators between the members, with no inducement to take from one and give to another.

TO HOUSE BUILDERS & PAINTERS

"AVERILL CHEMICAL PAINTS."

THESE PAINTS ARE SO WELL KNOWN throughout the Atlantic States and their reputation so abundantly established for

Beauty, Permanence and Economy

That we can confidently recommend and guarantee an entire satisfaction in their use.

THEIR COST is less than pure leads, and covers one-fifth more surface, making them the most economical Paints in the market.

THEIR DURABILITY is unquestioned. They dry hard with a smooth and glossy surface and will not chalk, crack or peel off.

THEIR ADAPTABILITY.—They are already mixed and ready for use and require no oil, turpentine or dryers. Are sold of any desired shade, by the gallon only.

Testimonials:

Gen. James S. Negley, M. C., Pittsburg, Pa., writes Nov. 10, '70: I have no hesitation in recommending the "Averill Chemical Paints" to those who regard economy and durability. It weathers our smoky atmosphere better than any Paints I have tested. The colors are rich and variable. Altogether I find them the CHEAPEST AND BEST.

"JACKSONVILLE, FLORIDA CUSTOM HOUSE.—It looks as fresh and glossy as when first applied. I do not believe any LEAD AND OIL CAN EQUAL IT. "WM. P. DOCKRAY."

I have carefully compared the cost and merits of the Averill Paints with White Lead and Oil and find 99 cents per gallon in favor of the former.

FRIDAY MORNING, OCT. 20, 1871.

CITY.

THE NOBLE RED MAN.—Several Indians from the Umatilla Reservation were in this city yesterday. Among them were Winemsnoot and another somewhat noted gentleman, after the persuasion of Siwashes, who are reputed to be very wealthy in horses, and, as are such gentlemen in civilized life, potent among their peoples. They took a good look at our city and seemed to like it, though we could not learn that they at any time intimated an intention to invest. For several hours in the afternoon, they were squatted in council with the Portland tyee, John Wesley, on the sidewalk near our office, where they were curiously gazed upon by almost every passer-by. John seemed to be holding forth upon the advantages of dwelling in polished society, but we fear he did not make any deep or marked impressions. The old covies didn't impress worth a cent. We undertook to interview them, but as they didn't or wouldn't understand their own language (as we spoke it), we brought the interview to an early termination without being much the wiser for the news. Win-em-snoot—not so called on account of the beauty of his aquiline nose—introduced us to a rich old buck, said to be the owner of four thousand horses. His name, as near as we could catch it from the mellifluous tongue of Win-em-snoot, is Allie-sackabouttheearsandnoseandahigholdbuckyoubet. When we tried to pronounce the name of his friend and inquire about Mrs. Allie-sackabouttheears, etc., old Win-em-snoot and the rest of 'em laughed, and we went right away indignant.

AID FOR THE WISCONSIN SUFFERERS.—The ladies of the Unitarian Society of this city, are preparing for a Sociable to be held next Wednesday evening, the proceeds to be sent to the sufferers by the great and disastrous fire in the northern part of Wisconsin. This is a most commendable movement and one that ought to be followed by other efficient measures for the relief of the poor people of Wisconsin who have lost houses, cattle, farms and everything. The disaster to them is a greater misfortune than that which came at about the same time upon the people of Chicago, because they lost all as completely as did the latter, while they are more remote from immediate relief and from the business energy which will soon give employment to the poor of Chicago. The dispatches inform us that large districts of the country were burned over, leaving them barren wastes of ashes, and the people homeless and helpless. What are they to do, and how subsist the coming long terrible winter? While our sympathies go out so warmly toward Chicago, let us also remember the desolation which has come upon the people of Northern Wisconsin.

GO TO THE CONCERT.—On occasions like the present, when the people of a whole city have suddenly by an overwhelming calamity, against which human power could not avail, been deprived at once of fortune, homes, employment and every means of subsistence, it is well to open the heart to the appeals of charity, without counting too closely just how much we can give. Our people have done well, nobly, but yet they can do more. No one who has given, but can give another dollar. Those who have not contributed can join pleasure with charity by purchasing a ticket and going to the concert to-night. The hall will seat 2,000 people. Let there be at least 2,000 people in attendance. Chicago would do it and many times more if their calamity were ours, and they the givers. Only one dollar a ticket for the relief, and none so poor as not to have a dollar for the distressed. That dollar may return laden with rich blessings to the donor. Let it go for a ticket.

DULY WARNED.—Mr. C. W. Parrish, County Clerk, has received a letter, dated at Idaho City, October 11, 1871, as follows:

"SIR: There will leave this place to-morrow or the next day, a person in charge of two insane persons to deposit somewhere by order of County Commissioners. Look out for them. One is a large woman named Mrs. Haite; the other, a man known as Crib Dick. If you think it right that one community should protect the paupers of [illegible], all right—I don't."

We believe our county has had some experience heretofore in the matter of insane subjects from Idaho. The above warning will, perhaps, be sufficient to put the authorities on their guard in this matter.

FIFTY TICKETS TO ONE PERSON.—Many of our citizens are buying tickets for the concert, not only for their own use, but to swell the aggregate of proceeds. We are informed that ex-Senator Williams, after having contributed several times to the subscriptions in this city and at the State Fair, or on the cars, bought *forty tickets*, yesterday. We have no idea that he desired or expected this to be made public, but it is an example so rare, so worthy of emulation by our wealthy citizens that we venture to mention it without his knowledge or consent. Who comes next?

LOW RIVER.—The *Herald* speaks of the river being at present lower than the oldest inhabitant ever before saw it. This is certainly a mistake; it has often been even lower than now, as river men will readily testify. We distinctly remember going up the river at divers times, by boat, when the boat could only run while the heavy dew of the morning lasted. After that hour all hands had to go ashore to get a drink. How's that for low?

U. S. CIRCUIT COURT.—The suit of H. J. Weeks, L. A. Sanderson and A. H. Barker against W. S. Ladd et al., to recover money alleged to be due them as stockholders of the O. S. N. Co., was taken up on Wednesday and continued till yesterday, when a demurrer to the complaint was argued by Williams and Mitchell for the plaintiffs, and Logan, Page and Strong for the defendants. The argument will not be concluded till to-day.

FELL FROM A BALCONY.—A young man, the porter of the Cosmopolitan Hotel, fell from the balcony of that house yesterday afternoon, a distance of eight or ten feet, alighting upon the top of a woodpile below. The cause of the fall was the giving way of a panel of the bannister, against which he was leaning. Fortunately he was not much hurt, though at first a little demoralized.

ANOTHER MIGHTY HUNTER.—Tom Weeks has just come home from a raid among the game on the roaring Molalla, bringing as a trophy the head and horns from a buck deer which must have been a fair stand-off to that muckle fellow recently taken in and done for by Quimby. Hereafter Tom shall be known and hailed as mighty among the hunters.

NAST'S ALMANAC for 1872 is for sale at McCormick's. This publication is strictly original, and is full of the remarkable peculiarities of Nast's genius. Tales, poems and anecdotes of a humorous character are given, with illustrations in Nast's best style. Everybody will enjoy these productions of the best known of American artists.

SAILED.—The English ship *Bristolian*, Middleton, master, was taken in tow at noon yesterday, by the steamer *Vancouver*, for the lower Columbia river where she will anchor and receive the balance of her cargo of wheat for Liverpool.

EVERYTHING GIVES WAY FOR THE CONCERT.—The protracted revival meeting at the M. E. Church has been adjourned over for this evening, on account of the Chicago Aid Concert. Everything gives way for the Concert.

COMBINATION LOST.—The County Clerk's office was in tribulation yesterday, in consequence of the loss of the lock combination to the vault. The services of a locksmith had to be secured to get the plaguey thing open.

BODY FOUND.—The body of Jenkins the 2d mate of the *Mobe*, who was drowned about two weeks ago at Kalama, has been found. It was lodged against some drift, below the mouth of the Cowlitz river.

INSTRUMENTAL REHEARSAL.—The instrumental performers in the Concert to-night, are requested to meet at the Skating Pavilion at 2 o'clock this afternoon for rehearsal and to make final arrangements.

MORE MONEY SENT TO CHICAGO.—Yesterday Mr. Edw. Kahn, President of the Ladies' Hebrew Benevolent Society, telegraphed to Chicago $250 in currency, raised by that Society.

QUICK WORK.—The bark *Rival* arrived here on the 12th, discharged her cargo of assorted merchandise, put on 500 tons of freight and cleared yesterday for San Francisco.

Burnett's Kalliston is the best Cosmetic.

LOCAL BREVITIES.

The track of the west side railroad is laid to the summit of the mountains, about seven miles.

Prof. McGibeny is said to have in preparation the operetta of Leila, his pupils to carry the parts.

Orient Lodge of Odd Fellows, East Portland, has donated $100 to the distressed Odd Fellows of Chicago.

Miss Carrie Moore, the sensation skatist of California, is expected to arrive here about the first of November.

Steamers for Puget Sound and San Francisco will sail from this port to-morrow evening.

Mr. P. O. C. Newell has been stirring up the people of Milwaukie to contribute to the Chicago Relief Fund, and the people are going to do it.

The Harrison street school children contributed $24 25 in aid of the sufferers by the Chicago conflagration.

Samuel Evans has been licensed as an engineer in this district. He was, not long since, an engineer on Puget Sound.

There are two more locomotives for the O. & C. Railroad now on the way from San Francisco, to arrive in about ten days.

The bridge streets of East Portland are rapidly approaching completion. They are costly affairs in fact, but in theory, great improvements.

The case of Miss L. B. Jorker, arrested with a couple of confederates for going through an Innocent, was yesterday postponed in the Police Court.

One of our contemporaries complains that the lawyers in the Police Court are not dignified in their behavior.

PERSONAL.

Dr. Lamper and wife, late of Olympia, have arrived in this city, intending to take up their residence here.

Miss Susan B. Anthony and Mrs. A. J. Duniway, have gone to Puget Sound to spread the gospel of Woman Suffrage.

Messrs. Jas. Hendershott and E. S. McComas, of Union county, who have been attending the State Fair, leave for home to-day.

Mrs. Duniway of the *New Northwest*, with what seems to us unnecessary severity, denounces Joaquin Miller, an erratic sham.

AMUSEMENTS.

ORO FINO THEATER.—The minstrels had a good house last evening, on the occasion of Mr. Lowery's benefit, and the audience got the entire worth of their money. The beneficiary, and all the rest for that matter, were particularly happy in their several roles. There will be no performance to-night, and the last performance of the engagement will take place to-morrow evening.

ELOCUTIONARY AND HUMOROUS.—Mr. C. B. Plummer, the elocutionist and humorist, has returned from Astoria, where he gave two readings to full houses. He will hold forth at East Portland Saturday evening, and we advise the brethren and sisters to go and see and hear him. His Widow Bedotte, Hardshell sermon, Mark Twain, etc., are funny enough to laugh at for a month afterward.

BUSINESS NOTICES.

INSURE.—The New York Life Insurance Company, one of the oldest institutions of the country, appears in our advertising columns, which should be carefully read by everybody. The New York *Independent* says of this company:

"Scarcely another institution of the kind in the country can make an equal show of strength or official faithfulness and skill, and its friends may justly be proud of its high position. We voluntarily speak thus as an act of justice, due to the institution and to the community, and are happy to say that this is one of the few corporations which needs no newspaper commendation, and which neither fair competition nor the most searching commendation can damage." Insure in the New York Life.

NOTICE.

DR. ABORN hereby informs his patients that he has returned to Portland, and that he can be found at his new apartments corner of Third and Morrison streets.

H. Woodard & Co.'s Drug Store, Front Street, Portland.

A WORD TO THE WISE IS SUFFICIENT.—Be it known to the People of Portland and the surrounding country, that at the extensive clothing establishment of Kohn & Fishel, 91 Front street, they are selling new and stylish suits for Fall and Winter wear at prices that are astonishingly low. Call at this House and examine the large stock of Clothing and Furnishing Goods. You will come away satisfied.

AN EXTENDED POPULARITY.—"BROWN'S BRONCHIAL TROCHES" have been before the public many years. Each year finds them in new localities in various parts of the world. The Troches are pronounced universally superior to all other articles used for similar purposes. For relieving Coughs, Colds, and Throat Diseases, the Troches have been proved reliable.

An Anchor to Windward.

It is good seamanship, when there is reason to expect heavy weather to drop an anchor to windward.

We are in the midst of the season of chills and fever. The sure preventive of this distressing malady is Hostetter's Stomach Bitters. A course of that wholesome vegetable tonic will render an attack impossible. Take the hint and *drop an anchor to windward.*

Weak stomachs are most liable to be disordered late in the autumn when the changes of temperature are marked and frequent. Hostetter's Bitters fortifies the stomach against the effects of these variations. Let dyspeptics make a note of the fact and *drop an anchor to windward.*

The liver is more sensitive when the weather is continually alternating between the warmth of summer and the cold of winter than at any other period of the year. This is peculiarly the season of such alterations. Let the bilious remember that Hostetter's Stomach Bitters is essentially an anti-bilious medicine, and *drop an anchor to windward.*

The wisest plan is to forestall evil. The next best thing is to arrest it. For disorders of the stomach, irregularities of the bowels, and all periodical fevers, take as soon as the complaint developes itself, Hostetter's Stomach Bitters.

FINANCE AND COMMERCE.

THURSDAY EVENING, Oct. 19, 1871.

Gold in New York, 114⅝.

Currency, buying, 87; selling, 88.

Exchange on San Francisco ½ ℘c. prem.; on New York, 1½ ℘c. prem. Telegraphic transfers on New York, 1½ ℘c. prem.

Our local money market is easier, remittances from the interior being more liberal. Owing to the increasing supply of coin our bankers have marked up the rates of exchange to San Francisco. One of our bankers had coin shipped up on the steamer *John L. Stephens*, but owing to the increased supply, here from interior remittances, returned it by the same steamer, without opening the sacks. This increased supply gives more tone to the general market, and interior merchants make freer purchases of goods, consequent upon the growing confidence in the mercantile community, and also the opinion that we are not likely to have a stringent money market in Oregon.

W. C. Ralston, Vice President of the Pacific Insurance Company, telegraphed to J. G. Parker, Local Agent here: "At an enthusiastic meeting of the Directors and stockholders it was unanimously decided to meet everything and continue business as usual. The credit of the coast demands this and our community rejoices with us."

The bark *Almy* arrived this morning.

The bark *Rival* cleared to-day for San Francisco.

From a leading journal of Sept. 22d, 1871, published in England, the statements of which are held in high repute by dealers in Grain in Great Britain and on the Continent, as also by shippers in the United States, we obtain the following information in regard to Wheat in Great Britain: "In Suffolk and eastern Essex districts the condition and quality is generally good, but about a sixth part is blighted. For the number of acres put in there was an average yield of 28 bushels to the acre. In Harleston, (Norfolk) the yield varies from 30 to 40 bushels per acre—quality good—bulk secured in splendid condition. An average number of acres were put in. In Carmarthenshire, Pembrokeshire, and Cardiganshire, (Wales) the Wheat crop is universally complained of. The severe frosts of last Winter extensively damaged this cereal, and farmers assert that it is almost a total failure in very many districts of the counties of Carmenthen, Cardigan, and Pembroke. The average bushels to the acre is 16; the extent of land put in an average. Forbes (Morayshire)—quality good; all harvested in fine condition. The extent of land put in an average, yielding 30 bushels to the acre. Glasgow (Scotland)—Fair quality, hardly yet thrashed, but expected to turn out a good sample, as it has all been secured in fine condition."

From the English correspondent of a leading commercial paper of Oct. 7th, published in New York city, we extract the following:

"Large arrivals of Wheat have failed to depress the trade to any extent. In some instances prices have declined [illegible] shilling per quarter; but as there is a good French demand, the impolicy of allowing the quotations to recede is admitted. With such large supplies coming forward and at [illegible], wheat must not be expected to advance; but bearing in mind that the crop here is below the average, and that the stocks of old produce are small, any diminution of importance in our importations should lead to a speedy advance. The French demand is a most important feature and [illegible] watched. Not many years since [illegible] season of 1860-61, the French were very large [illegible] abroad. Owing to the very wet summer [illegible] crops both in England and France were sadly [illegible] and both countries were compelled to import very [illegible]. But when as the harvest of 1861 approached the French [illegible] convinced of a large crop, they [illegible] large supplies to England, and the result was [illegible] more disastrous to French agriculture than the late war was. Peace was concluded early in the spring, and the farmers had a fair opportunity of doing something toward raising crops of food. The season also has been rather favorable, and much assistance has been given to the farmers in the invaded districts. Should the French buy with their usual impetuosity, it may be discovered that they have over-supplied themselves if the harvest of 1872 should prove to be favorable."

TARRANT'S SELTZER APERIENT

"Under a burning sun, where Bilious affections and Fevers of various descriptions so generally prevail, TARRANT'S EFFERVESCENT SELTZER APERIENT has been successful beyond all parallel. Hence the physicians of the tropics give it their emphatic sanction, prescribing it in preference to every other aperient in use. The patients, of course, gladly acquiesce, for this preparation is one of the most delightful, as well as mild and cooling cathartics, chemistry have yet devised, and possesses every medical virtue of the far famed German Seltzer Spa. It is a powder that only requires the addition of water, to produce in an instant a delicious effervescent beverage, as well as an invaluable medicine. Ask for and accept none but the genuine.

RENNICK'S

Wahoo Bitters!

NEVER KNOWN TO FAIL IN CURING

Rheumatism, Neuralgia, Dyspepsia,

and all Affections of the

Stomach, Liver and Kidneys.

IT HAS CURED CASES WHERE THOUSANDS OF dollars had been expended to no purpose but filling the system with mercury, by practical or educated quacks.

Wahoo—(*Euonymus Atropurpureus*) a small shrub growing in many parts of the United States. The bark of the root is a bitter tonic, laxative, astrictive, diuretic, and expectorant, and is advantageously used in pulmonary affections, dropsy, constipation, torpidity of the liver, dyspepsia and intermittent fevers.

In the Certificate of Mr. Thompson, of the Workingman's Boarding House, Front street, Portland:

PORTLAND, October, 4th, 1871.

"I hereby certify that I am acquainted with the properties of the Wahoo Bitters, put up by S. J. Rennick. It is one of the best remedies for the Stomach and Blood in the world. In fact, it will cure Dyspepsia, Chronic Liver complaint, Chills and Fever, and has the advantage of not being intoxicating.

J. N. CUNNINGHAM, M. D.

This is to certify that I have used the celebrated Wahoo Bitters, and have known several other men in my house who were prostrated with ague and rheumatism, whom it has effectually cured. It acts on the liver and kidneys, surpassing anything I ever used.

J. R. THOMPSON, of Thompson House.

PORTLAND, Oregon, Sept. 12, 1871.

This is to certify that I have been sick with chills and fever for the last fourteen days, and have tried a great many remedies, and found them all to be humbugs, and was about to give up everything in despair. Mr. Rennick heard about my case, and gave me a bottle of his Wahoo Bitters and I was relieved, as if by magic from the hand of God.

A. KOLP, Philadelphia Brewery, Portland, Oregon.

McMINNVILLE, Sept. 27, 1871.

This is to certify that I have used Rennick's Wahoo Bitters for a good while, having been acquainted with the Wahoo bark for over thirty years, and which aided by other barks, known only to the proprietor, it surpasses any medicine ever used for Ague, Chills, Fever and all affections of the Liver, Kidneys and Bladder. I have no hesitation in recommending it to the public. I am going on a visit to Illinois and take some with me.

F. J. WRIGHT.

ELLIS STATION, W. P. R. R., Sept. 24.

I give this of my own free will for the benefit of suffering people: I am fifty-eight years of age, born in Dilley, Staffordshire, England, and a miner; suffered from rheumatism for years; have traveled with crutch and cane, for the last two years, but I thank my God that Wahoo Bitters has made me a well man. No humbug about this. Experience has proved that Wahoo Bitters is king of all diseases. I recommend any person any way affected to try them.

OLD ARCHY BURTON, Corral Hollow, W. P. R. R., Cal.

October 3d.

This is to certify that I have used Rennick's Wahoo Bitters, and can with confidence recommend it to all suffering from indigestion and all affections of the liver and kidneys.

JOHN STURGIS, Front street, near sawmill.

PORTLAND, October 1st.

This is to certify that I have been affected for twenty years, and the more doctors' medicines I took, I became worse when the effects of the medicine was over. I had a dreadful pain in my side. The doctors said it was my liver, but, thank God, one bottle of the Wahoo Bitters made a change, and I believe it will make a perfect cure.

MRS. SALLY J. L[illegible].

All orders directed through the Postoffice will be at once attended to. The Bitters will be carefully packed and delivered on any boat, property.

Orders filled by Express, or as directed.

PRICE—$9 per dozen or $1 per Bottle.

FINANCE AND COMMERCE.

THURSDAY EVENING, Oct. 19, 1871.

Gold in New York, 114⅞.

Currency, buying, 87; selling, 88.

Exchange on San Francisco ½ ℘c. prem.; on New York, 1½ ℘c. prem. Telegraphic transfers on New York, 1¾ ℘c. prem.

Our local money market is easier, remittances from the interior being more liberal. Owing to the increasing supply of coin our bankers have marked up the rates of exchange to San Francisco. One of our bankers had coin shipped up on the steamer *John L. Stephens*, but owing to the increased supply here from interior remittances, returned it by the same steamer, without opening the sacks. This increased supply gives more tone to the general market, and interior merchants make freer purchases of goods, consequent upon the growing confidence in the mercantile community, and also the opinion that we are not likely to have a stringent money market in Oregon.

W. C. Ralston, Vice President of the Pacific Insurance Company, telegraphed to J. G. Parker, Local Agent here: "At an enthusiastic meeting of the Directors and stockholders it was unanimously decided to meet everything and continue business as usual. The credit of the coast demands this and our community rejoices with us."

The bark *Almy* arrived this morning.

The bark *Rival* cleared to-day for San Francisco.

From a leading journal of Sept. 23d, 1871, published in England, the statements of which are held in high repute by dealers in Grain in Great Britain and on the Continent, as also by shippers in the United States, we obtain the following information in regard to Wheat in Great Britain: "In Suffolk and eastern Essex districts the condition and quality is generally good, but about a sixth part is blighted. For the number of acres put in there was an average yield of 28 bushels to the acre. In Harleston, (Norfolk) the yield varies from 20 to 40 bushels per acre; quality good—bulk secured in splendid condition. An average number of acres were put in. In Carwarthenshire, Pembrokeshire, and Cardiganshire, (Wales) the Wheat crop is universally complained of. The severe frosts of last Winter extensively damaged this cereal, and farmers assert that it is almost a total failure in very many districts of the counties of Carmenthen, Cardigan, and Pembroke. The average bushels to the acre is 15; the extent of land put in an average. Forbes (Morayshire)—quality good; all harvested in fine condition. The extent of land put in an average, yielding 30 bushels to the acre. Glasgow (Scotland)—Fair quality, hardly yet thrashed, but expected to turn out a good sample, as it has all been secured in fine condition."

From the English correspondent of a leading commercial paper of Oct. 7th, published in New York city, we extract the following:

Large arrivals of Wheat have failed to depress the trade to any extent. In some instances prices have declined one shilling per quarter; but as there is a good French demand, the impolicy of allowing the quotations to recede is admitted. With such large supplies coming forward and at hand wheat must not be expected to advance; but bearing in mind that the crop here is below the average, and that the stocks of old produce are small, any diminution of importance in our importations should lead to a speedy advance. The French demand is a most important feature, and should be carefully watched. Not many years since, I think in the season of 1860-61, the French were very large buyers of Wheat abroad. Owing to the very wet summer of 1860, the crops both in England and France were sadly deficient, and both countries were compelled to import very largely. But when as the harvest of 1861 approached, the French were convinced of a large crop, they re-exported large supplies to England, and the result was probably more disastrous to French agriculture than the late war was. Peace was concluded early in the spring, and the farmers had a fair opportunity of doing something toward raising crops of food. The season also has been rather favorable, and much assistance has been given to the farmers in the invaded districts. Should the French buy with their usual impetuosity, it may be discovered that they have over supplied themselves if the harvest of 1872 should prove to be favorable.

MARKET REVIEW.

BREAD—Quotable, Soda, 7½c; Picnic, 7½c; Butter 7½c; Jenny Lind, 11½c; Gingersnaps, 11½c; Pilot, extra, 6c; Medium, 5½c; Navy, 4½c.

WHEAT—At the close of our last week's review the market was drooping, but on Monday it showed more animation under telegrams giving market in Liverpool at 12s 2d. TARRANT'S SELTZER APERIENT

Under a burning sun, where Bilious affections and Fevers of various descriptions so generally prevail, TARRANT'S EFFERVESCENT SELTZER APERIENT has been successful beyond all parallel. Home the physicians of the tropics give it their emphatic sanction, prescribing it in preference to every other aperient in use. The patients, of course, gladly acquiesce, for this preparation is one of the most delightful, as well as mild and cooling cathartics, chemistry have yet devised, and possesses every medical virtue of the far famed German Seltzer Spa. It is a powder that only requires the addition of water to produce in an instant a delicious effervescent beverage, as well as an invaluable medicine. Ask for and accept none but the genuine.

RENNICK'S

Wahoo Bitters!

NEVER KNOWN TO FAIL IN CURING

Rheumatism, Neuralgia, Dyspepsia,

and all Affections of the

Stomach, Liver and Kidneys.

IT HAS CURED CASES WHERE THOUSANDS OF dollars had been expended to no purpose but filling the system with mercury, by practical or educated quacks.

Wahoo—(*Euonymus Atropurpureus*) a small, shrub growing in many parts of the United States. The bark of the root is a bitter tonic, laxative, nitrictive, diuretic, and expectorant, and is advantageously used in pulmonary affections, dropsy, constipation, torpidity of the liver, dyspepsia and intermittent fevers.

Read the Certificate of Mr. Thompson, of the Workingmen's Boarding House, Front street, Portland:

PORTLAND, October, 4th, 1871.

I hereby certify that I am acquainted with the properties of the Wahoo Bitters, put up by S. J. Rennick. It is one of the best remedies for the Stomach and Blood in the world. In fact, it will cure Dyspepsia, Chronic Liver complaint, Chills and Fever, and has the advantage of not being intoxicating.

J. N. CUNNINGHAM, M. D.

This is to certify that I have used the celebrated Wahoo Bitters, and have known several other men in my house who were prostrated with ague and rheumatism, whom it has effectually cured. It acts on the liver and kidneys, surpassing anything I ever used.

J. R. THOMPSON, of Thompson House.

PORTLAND, Oregon, Sept. 12, 1871.

This is to certify that I have been sick with chills and fever for the last fourteen days, and have tried a great many remedies, and found them all to be humbugs, and was about to give up everything in despair. Mr. Rennick heard about my case, and gave me a bottle of his Wahoo Bitters and I was relieved, as if by magic from the hand of God.

A. KOLP,

Philadelphia Brewery, Portland, Oregon.

MCMINNVILLE, Sept. 27, 1871.

This is to certify that I have used Rennick's Wahoo Bitters for a good while, having been acquainted with the Wahoo bark for over thirty years, and when aided by other barks, known only to the proprietor, it surpasses any medicine ever used for Ague, Chills, Fever and all affections of the Liver, Kidneys and Bladder. I have no hesitation in recommending it to the public. I am going on a visit to Illinois and take some with me.

E. J. WRIGHT.

ELLIS STATION, W. P. R. R., Sept. 3d.

I give this of my own free will for the benefit of suffering people: I am fifty-eight years of age, born in Dilley, Staffordshire, England, and a miner; suffered from rheumatism for years; have traveled with crutch and cane; for the last two years, but I thank my God that Wahoo Bitters has made me a well man. No humbug about this. Experience has proved that Wahoo Bitters is king of all diseases. I recommend any person any way affected to try them.

OLD ARCHY BURTON.

Corral Hollow, W. P. R. R., Cal.

October 3d.

This is to certify that I have used Rennick's Wahoo Bitters, and can with confidence recommend it to all suffering from indigestion and all affections of the liver and kidneys.

JOHN STURGIS,

Front street, near sawmill.

PORTLAND, October 1st.

This is to certify that I have been affected for twenty years, and the more doctors' medicines I took, I became worse when the effects of the medicine was over. I had a dreadful pain in my side. The doctors said it was my liver, but, thank God, one bottle of the Wahoo Bitters made a change, and I believe it will make a perfect cure.

MRS. SALLY J. L——.

All orders directed through the Postoffice will be at once attended to. The Bitters will be carefully packed and delivered on any boat, properly.

Orders filled by Express, or as directed.

PRICE—$9 per dozen or $1 per Bottle.
